REPORT OF SCHOOL BOARD.

In presenting our annual Report, we would say that all the schools are in a prosperous condition, and we believe equal to any in the country towns of our state.

By the last U. S. Census Report, 133 days is the average length of schools for the year in this country. We give the children in our town 150 days ; 17 more than the average.

By the New Hampshire School Reports, 24 weeks and a fraction is the average of school year in our state, we give our children 30 weeks, nearly 6 more than the average.

The schools have been frequently visited by the Board during the year. We believe that each teacher employed this year has endeavored to do her best for the advancement of each scholar under her charge, and where the scholars have put forth their best efforts there has been the most marked improvement.

During the year a public spirited citizen, Mr. C. W. Smith, presented the Grammar school a handsome flag staff, over fifty feet in height. The pupils solicited funds and purchased a National flag, so that on fair days during the school session "Old Glory" floats in the breeze, inspiring in our young people a love of country and patriotism.

Following is the Statistical Report.

I hereby certify that I have examined the account of the Treasurer of the Board of Education and find it correctly cast.

O. D. FESSENDEN, Auditor.

The sum expended for repairs includes the expense of cleaning and sizing all the schoolroom walls; papering the North, West and Grammar walls; cleaning and coloring the Village Primary walls. Also the mason work; white-washing all the ceilings, repairs of plastering, and blackboards, as well as all incidental repairs.

The floors in all but the grammar room need oiling; the seats and desks in the grammar and village primary, need staining and varnishing; and I would recommend that work be done; and I think it can be done within the amount expended for repairs the past year.

Under existing laws we are obliged to furnish text books and all kinds of supplies from the public funds. All the scholars are now almost wholly supplied; and as I bought books at wholesale prices, we have some on hand of the younger class books, where they need renewing the most frequently.

I voluntarily spent a days time, visiting the different publishing houses in Boston, to obtain the best prices.

I would recommend that fifty dollars be raised the coming year; no more will be expended than will be actually needed for the advancement of the scholars.

A teachers desk was much needed in the West school. There was no place about the house under lock and key, which the teacher needed; so a nearly new, exchanged cherry desk was bought for the price named; a new one, same pattern, would cost fifteen dollars. There was not a chair save the teachers, in the West school, so six common chairs were bought for that room.

Respectfully submitted,

G. W. BRIDGES, Treasurer.
